About Us...

Director's Message

Dear friends and associates,

As we have entered our second decade of business presence in the Plastic Industry, I feel the need through this message to outpoint all those things that helped us reach this point, such as the complete solutions we can provide to all our clients, and the expansion in both the domestic and international market. Through a series of organized and focused moves on behalf of the company's management and personnel, we enter a new era, by creating a new series of products, expanding to new markets, and enforcing the ties with our existing and new associates. The perspective of economic and business changes on a global level, gives us an additional motive to preserve the high level of efficiency when it comes to our clients' needs, by providing high-end products and services. This is what brought us to the present level, and this how we intend to continue.

Why Us ?

The strong position at lighting market

- **In-House Research and Development Centre**
- **Customer Oriented Company**
